

PEACE RUMORS

Revived by Special Meeting
Of English Cabinet.

RUSSIAN LOAN IS ARRANGED.

China Suggested as the Power Which
May Have Asked to Have the
Eastern War Ended.

London, March 23.—London was the center of Russian-Japan peace rumors today. They grew out of a meeting of the cabinet which rumor would have been an extraordinary one to consider proposals made for intervention by the powers in the far East war. No official information is forthcoming that the cabinet was discussing intervention, despite diligent inquiry in official circles, but at the Japanese legation there was an inclination to believe that the report was true. China was suggested as the power that might have asked the other powers to interfere.

New Russian Loan.
St. Petersburg, March 23.—Agreement for a new Russian internal loan of 2,000,000 roubles was signed today. The loan is issued at 96 and is redeemable in fifty years.

Shot Down Many Peasants.
St. Petersburg, March 23.—(Bulletin)—A message from Kutno, Poland, today says that a police patrol fired upon 140 peaceful peasants on a highway. Two of the peasants were killed and 50 were wounded.

Russians Are Retiring.
Tokyo, March 23.—A telegram from Marshal Oyama's headquarters today states that the Japanese forces that are pursuing the enemy have reached Changchun, 100 miles north of the Russians are retiring in disorderly masses to the northeast.

Has Russian Army Escaped.
St. Petersburg, March 23.—It is today claimed that the main Russian army has escaped. It is reported that a desultory conflict has occurred at Changchun, 100 miles north of the Russians, where General Linewitch is preparing to delay Marshal Oyama.

PEACE PARTY ACTIVE

Emperor Urged to Open Negotiations
With Japan—Witte at Head of
the Movement.

St. Petersburg, March 23.—The formidable party within the government which is urging the emperor to indicate to Japan Russia's willingness to end the war if a reasonable basis can be reached, has been greatly encouraged the last few days, and an actual pacific proposal may be just ahead. The subject has occupied much of the attention of the conferences at Tsarskoe Selo. Certain grand dukes, supported by General Sakharoff, the minister of war; Admiral Avelan, the head of the admiralty and what is known as the war party, are still bitterly opposed to the idea of peace under present circumstances, but with the exception of the ministers of war and marine, the emperor's ministers, backed by Mr. Witte, solidly favor this course, and the convincing arguments of the same direction are now being supported by German opinion. The rumor that Emperor William had tendered his good offices now seems to be confirmed. However, if Emperor Nicholas decides to approach Japan, it will be through France.

Abandonment of compulsory use of Russian and imparting instruction in Polish in the schools of Poland, one of the main features of the government's Polish policy of the last 30 years, was recommended at a special meeting of the committee of ministers, a large majority headed by President Witte favoring a discontinuance of the attempt to Russify Poland by this method, and asking the minister of education, M. Glikoff, to submit a plan whereby instruction may be conducted in Polish, and the principal subjects of study, instead of as at present requiring Polish, if taught at all, to be studied from Russian textbooks. It was pointed out that this measure accentuated instead of healing the breach between the two nationalities.

A dispatch from Gushu Pass, Manchuria, says:
The Japs appear to have given the Russians a temporary respite from pursuit, probably for the purpose of reforming their forces, as they did after the pursuit of the Russians north from Liaoyang. The Russian front runs southeast by northwest, with the Russian right, which nearer the railroad than the left, while the Japanese position follows a line intersecting Kai-

yuan. The impression here is that the Japanese eastern army is marching on Kirin, while the western army is continuing north between the Mongolian border and the railroad, with the main line from Harbin its objective; but a period of inactivity is the likeliest outcome after the great exertions of the Japanese on the Shajie; at Mukden and at Tie pass. Rumors of a probability that Grand Duke Nicholas Nicholas-vitch will assume command of the armies, lately current at Mukden, have been revived here the past two days and are continuing in spite of the nomination of General Linewitch.

Terrible Fighting at Mukden.
Tokyo, March 23.—An officer who has returned from Moji describes the terrible fighting which occurred at the various gates before the capture of Mukden. He says that never in the history of warfare were such formidable field defenses faced by infantry attacks as the works protecting Mukden. The ground became covered with hillocks of corpses. Three separate forces attacked the western, southern and eastern gates. The struggle was not decided for many hours. Line after line of Japanese infantry went down. Finally at 11 o'clock at night the Russians broke and fled in the direction of the northern gate. They suffered enormous losses outside, however, being caught on all sides like rats in a trap. Altogether 26,000 prisoners were captured at the southern and 5,000 at the western gate.

Wholesale Arrests.
St. Petersburg, March 23.—In connection with the peasant revolt there have been 500 arrests in the Dvinsk district, where, besides sacking and burning property and compelling the owners to seek refuge in the towns, the rioters are killing cattle and felling trees. In the Kief district it is reported that forged documents have reached the local authorities ordering the sale of state lands to peasants at absurdly low prices. These documents are believed to have been circulated by revolutionists in order to promote a revolt of peasants.

Demand Reforms.
Moscow, March 23.—At a conference summoned by the Moscow nobility meeting here, the representative of the Bessarabian nobility will present resolutions adopted by that association urging that the conference declare itself, first, for speedy termination of the war; second, for the right of the nobility, zemstvos and other local organizations to a voice in measures for local safety and for the quieting of the peasant and other disorders; third, for no interference with the working of Interior Minister Boulganin's commission in the interest of representation of opinion; fourth, for respect for freedom of opinion; fifth, for representation by nine members on the commission, three each representing the nobility, the zemstvos and the cities. The Bessarabians also demand a speedy summoning of the commission.

To Prevent Discrimination.
Lansing, Mich., March 23.—Representative W. E. Bosley of Calhoun county introduced in the lower house of the state legislature a bill prohibiting differences in the price of oil other than those directly traceable to freight charges. The bill is aimed to prevent discrimination between localities. It has been alleged that one county in Michigan recently had to submit to an arbitrary increase in the price of oil coincident with the winning of a lawsuit against the Standard Oil company by residents of that county.

DAY OF MOURNING

Brockton, March 23.—Public funeral services were held today over the remains of 39 unidentified victims of the explosion at Grover's shoe factory. Flags are at half mast and houses and stores are draped in black. All business is suspended. Services were held in the city theatre and all the churches.

SIX MEN DROWN

Pittsburg, March 23.—Wm. Huggins and four men who engaged him to ferry across the swollen Monongahela river, drowned at Charlevoix this morning. They were carried over a dam and could not be rescued. Their names are unknown.

Wheeling, W. Va., March 23.—Tower boat Josh Cook, crashed into Bellaire bridge early this morning and was wrecked. One man drowned. His name is unknown.

PANIC IN SUBWAY

New York, March 23.—Motorman James Daly and Morris Musher and Miss Mary Edelson were badly hurt this morning and a score of passengers were shaken up and bruised in a subway collision. Two passenger trains crashed, one being crowded and the force of the impact threw many to the floor. Women became panic-stricken and men in the mad rush to get out trampled several under foot. A policeman with a club stopped the panic.

An Indianapolis man has been ordered by the courts to pay his ex-wife \$52,750 alimony.

DISMISSES SUIT

Castro Yields to France in
Cable Company Case

IS POSTPONED INDEFINITELY

Arrangement Effected Between
Man and English Bondholders
and Venezuela.

Washington, March 23.—The action of the Venezuelan court in postponing without date the suit against the French cable company is regarded by French cable company officials here as being equivalent to a practical abandonment of the attempt to secure by decree a forfeiture of the company's concession. Therefore, it appears that the action of the French minister to Caracas, as reported by Minister Bowen to Washington last Monday, in demanding a discontinuance of the proceedings against the company, has been effectual, so there will, in all probability, be no occasion for a resort by the French government to other measures to protect the company's interests. While the effect of this is to diminish at once the strain upon the relations between France and Venezuela, it is pointed out here that by reason of the exclusion of the French claims from the Velutina arrangement, to be concluded between the British and German bondholders on the one side and Venezuela on the other, the French government probably will still retain a lively interest in that projected settlement. Notwithstanding the statement from London that the council of foreign bondholders contends that this settlement is entirely in accord with the Washington protocol of 1903, the officials here fail to find in that protocol any warrant for this agreement, which they regard as likely to seriously affect the claims of and seriously affect the claims of and Germany against Venezuela, and some of the foreign representatives here have called the view of the matter to their own governments.

The state department has not heard anything from Minister Bowen to indicate that the Venezuelan government has made answer to his last proposition to arbitrate the American claims, and it is supposed that the answer when it does come will be to the effect that the Venezuelan government insists on awaiting the final action of its courts upon the pending asphalt case. It will then remain for the state department to determine how long it is prepared to await this action.

MR. ROCKEFELLER

Announced His Gifts of \$100,000 May
Withdrawal of His Gifts of \$100,000 May
Foreign Missions.

New York, March 23.—John D. Rockefeller is said to be exceedingly annoyed at the protest made by the Congressional ministers in Boston against the acceptance of a gift of \$100,000 to the board of foreign missions on the ground that the money is tainted by lawless methods used in securing it. It is generally believed that he will withdraw the gift.

BUILDING SCORCHED

Many Lives Endangered and Damage
Amounting to \$50,000 Done by
Fire in New York.

New York, March 23.—Many lives were endangered and damage to the extent of \$50,000 was done by a fire in the nine-story Empire State building at Broadway and Bleecker streets. Scores of girls employed in the upper portion of the building were thrown into a panic when the flames swept up from the seventh floor, where the fire started, and it was only by the greatest good fortune that all escaped. As it was many were more or less rushed in the crush which followed the fire down the stairs. The fire was confined to the three upper stories and was subdued after about an hour's hard work.

STRICKEN DUMB

After Awakening From a Nap at St.
Louis Fred Schmidt Finds That
He Can't Talk.

St. Louis, March 23.—After awakening from a nap Fred Schmidt was stricken speechless just as he was about to call his wife. He had been ill for several days. Physicians stated the case to be motor aphasia, and say he may become permanently speechless. Schmidt's hearing is unaffected.

WITH A CANE

And Handkerchief Indiana
Man Strangles Himself
to Death.

Washington, Ind., March 23.—John W. Davidson, 56, committed suicide in a horrible manner today. He had been ill for five weeks, and this morning he decided to hasten death by tying a handkerchief about his neck, then placing a cane in the noose he turned the cane over and over, tightening the handkerchief and choking himself. When his servant went to his room he discovered him dead.

ZURHORST FINED

Sandusky Man Pays Hundred
for Contempt

HAD BEEN ENJOINED BY COURT

Ordered Not to Distribute Pamphlets
But He Claimed That Injunction
was Dissolved.

Sandusky, O., March 23.—Ed. H. Zurhorst was fined \$100 and costs for contempt of court this morning by Judge Chas. S. Read. Some weeks ago Zurhorst was enjoined from distributing a pamphlet attacking certain political enemies on a petition filed by Customs Collector C. A. Judson. After an amended petition had been filed Zurhorst distributed his pamphlets openly, claiming that the amended petition dissolved the injunction. He was cited for contempt several days ago and was arrested on his return to Sandusky today.

HANGED TWICE

First Time. Noose Became
Unfixed—Bungling Job
at Pittsburg.

Pittsburg, March 23.—Wm. J. Byers and Reno Bardia were hanged in the Allegheny county jail this morning. Bardia was the first to mount the scaffold and soon after the hanging of Byers followed. Desperate efforts have been made to save the lives of both men. Byers had been in jail almost three years, as a confessed murderer of August J. Layton near Turtle Creek, June 3, 1901, with whose wife Byers was infatuated. Bardia killed Byers in a snafu on September 26, 1903, at Imperial, during a drunken fight. He pleaded guilty, claiming that he was acting in self defense.

Two attempts were necessary before the execution of Byers was successfully accomplished. When the trap was sprung the knot in the noose became unfixed. Byers dropped to ground and was caught by Sheriff Dickson. Although there was a horrible red mark about the neck and he was doubtless suffering great pain, he displayed great nerve and walked back to his cell without assistance. When a new rope was fixed in place Byers was led again from the jail to the scaffold. He had a smile on his face and while standing on the trap the second time exclaimed, "Hang me!" Death came with a prayer upon his lips. The first attempt was made at 10:26, the second hanging at 10:34.

SOAKED

Her Clothing With Oil and Then Applied a Match—Young Bride's
Awful Suicide.

Cleveland, O., March 23.—Mrs. Anna Seelye, aged 22, a bride four months, died at the Huron street hospital yesterday after a terrible suffering, the result of burns from her oil-soaked clothing, to which she touched a match. The deceased was the wife of Frank Seelye. Since their marriage four months ago she was one continual home-sick woman, until Tuesday they had a domestic quarrel. A half-dozen matches beside a candle to her father, telling him to take care of her, and an oil can told the story of self-destruction.

SITUATION ACUTE

Foreign Creditors Coveting
San Domingo Ports

NOW DANGER OF AN UPRISING

Action of Belgium Likely to be
Emulated by Other Powers
That Are Interested.

Washington, March 23.—President Roosevelt may soon have the satisfaction of saying to the Senators who opposed his Santo Domingo policy: "Well, I told you so."

News from the island, whether official or unofficial, points to a crisis which can be averted only by the United States assuming a protectorate which will be even more extensive than the one that was contemplated by the previous agreement. Already President Morales, while claiming ability to put down any revolution which may arise, through disappointment or occasion among the people by failure of Washington to ratify the proposed treaty, admits he is unable to pay, under the present conditions, the principal or even the overdue installments upon the foreign debt. Officials of the government believe the only possible solution of the difficulties is for the United States to assume a temporary protectorate over the republic, to straighten out the affairs, internal and foreign, and arrange a scheme by which the debts may be eventually paid through growing prosperity and assurance of stability.

San Domingo, March 23.—The failure of the American senate to take action on the Dominican treaty produced an acute situation here. An uprising of Dominicans is imminent, based on the cry that the Morales has been discredited in the United States.

President Morales states that he is prepared to put down any revolution, but that a more serious matter in his mind is foreign complications growing out of Belgium's demand, presented on March 21. Belgium wants the customs receipts of a port of Santo Domingo to the extent of \$25,893 a month, according to a former agreement, on which no payment has been made for three years. This first demand is construed as a direct result of the failure of the treaty between the United States and Santo Domingo. President Morales anticipates similar demands by other foreign powers, which he will be helpless to resist. He says he wants to pay all the country's debts, but sees the ruin of the republic with every port in the hands of a different foreign power and no revenue for Dominican government. The president added: "It is entirely possible that the United States may have to send an ultimatum here on account of the Dominican government being unable, though not unwilling, to meet its obligations. It is utterly impossible for the government to pay the sums due foreign nations unless the United States can procure from foreign powers a postponement of their demands. Otherwise these demands will be pressed. I have no physical or moral force to resist them. With the custom houses in the charge of the United States the revenues will develop speedily and all demands will be paid, with the result that the country will be educated to peace and permanent prosperity."

President Morales has about 1,200 men under arms ready to crush the first internal uprising, but should the customs houses be seized he would be without funds with which to pay his army, which would immediately desert. With the seizure of the ports by foreign powers, it is argued here that the Monroe doctrine will be nullified as regards this republic. With the United States in possession of two ports it would not be logical, it is argued, to oppose the seizure of other ports by foreign powers. No reply has yet been made to the Belgium demand.

Kaiser Starts on Trip.

Berlin, March 23.—Kaiser Wilhelm started today on a trip to the Mediterranean. The tour is expected to last several weeks.

SOME ONE,

Evidently Familiar With Lima Society
Terrorizes Many Women by Writing Anonymous Letters.

Lima, O., March 23.—The police here are baffled in the apprehending of an anonymous letter writer, who by his or her communications has half the society girls in a state of nervous prostration. The letters have been sent to different people regularly, but a few days intervening. In almost every case

the writer has shown great familiarity with the life and conditions of the persons whom he addressed, which makes the police hold to the opinion that the miscreant is some one high in social life. The latest was received by the Secretary of the Board of Trade who was warned not to attempt any further boom for the city.

In one instance a young society girl was told that a big negro was following her night and day, and the letter has so affected her that she is fearful to leave her home.

Dr. Doren Died Thursday.
Columbus, March 23.—Dr. Gustavus Doren, one of the founders and for 46 years superintendent of the State institution for the feeble minded youth, died this morning of heart disease.

Anthracite Men Protest.

Altoona, Pa., March 23.—The joint scale committee of the bituminous coal miners and operators passed a resolution protesting against the bill now pending before the Pennsylvania legislature which levies a tax of 3 cents a ton on all coal mined in Pennsylvania. Both the representatives of the operators and miners declare that if the bill should become a law it will add to the difficulties in the production of coal in competition with the southern fields, that do not have such a tax.

No Legislator Indicted.

Springfield, Ill., March 23.—The Sangamon county grand jury, which made its final report to Judge Thompson and was discharged, did not indict Richard F. Kinsella or any one else in connection with the charges of fraud made by Frank D. Comerford in the Illinois legislature matter. The list of indictments, running up to the grand total of 54, did not contain any sensational ones, and in fact none other than those which had been anticipated.

Receiver in Charge.

Philadelphia, March 23.—Judge Holland in the United States district court appointed J. Hector McNeill receiver for the Provident Investment company. The company made an assignment with estimated liabilities of nearly a million dollars and, it is said, practically no assets.

EMPEROR WILLIAM DELIVERS A SPEECH

Bremen, March 23.—At a banquet in the town hall given in honor of the unveiling of a monument of Emperor Frederick, Burgomaster Paul made a speech in which he referred to the first German fleet having been sold under the auctioneer's hammer, and said that the model of the admiral's flagship of that fleet was in the Bremen town hall. Emperor William replied to the burgomaster's speech, saying that when he was a youth he stood by that model and felt deeply ennobled at the disgrace done the German flag. That perhaps showed him how to comprehend the tasks of the German empire. He had sworn an oath of fidelity to the flag, and when he became the head of the government he would "do everything possible to let bayonets shatter and keep the bayonets sharp and to the cannon ready so that envy and greed from without would not disturb us in tending our garden or in building our beautiful house."

SIX MEN KILLED

Explosion Occurs in an Indiana Coal
Mine—Bodies Found After the
Disaster.

Princeton, Ind., March 23.—An explosion occurred in the mine of the Princeton Coal and Mining company, six men being killed and four injured. Of the killed, all but one were dead when found in the mine. Their bodies were rescued two hours after the explosion, the delay being caused by the inability of the rescuers to combat the explosion. The five injured, including George Dill, who later died, were brought to the surface 20 minutes after the explosion. They were found heaped together in an unconscious state. The cause of the disaster is not known, save that it resulted from a powder explosion. The miners were making their blasts previous to leaving the mine, and the greater part of the miners had ascended. Whether it was a premature shot or an overcharge is not known now, nor is it known who fired the shot.

Dead: H. Weatherby, 30, married; Edmond Gelsner, 27, single; Albert Genser, 21, single; Harry Taccari, 45, single; William Rices, 28, married; George Dill, 45, married. The injured were: John Dill, 20, son of George Dill, single, seriously burned and will probably die; William Jones, 58, married, seriously burned and will probably die; Joseph Ward, 47, married; General Cole, 57, married.

Another Identification.

Brockton, March 23.—The body of an unknown man who was killed in the explosion and fire at the Grover shoe factory was identified today. It was that of Mrs. Lillian B. Hurd. This makes the sixteenth identification.

THIRTEEN DAYS

Mother and Daughter Have
Been Sleeping.

DOCTORS MUCH INTERESTED

Mutual Hypnotism Is the Cause
Assigned by One Physician for
the Strange Sleep.

New York, March 23.—Mutual hypnotism is the cause assigned by Dr. Paul Allen, who occupies the chair of materia medica in the New York Homoeopathic College, for the strange sleep now lasting 13 days, of Mrs. James H. Heustis and her daughter, Luella.

The two women lie in their sleep trance at the Presbyterian hospital, and until the suggestion exercised by each upon the other is broken, neither will awaken, according to the alienist. "Very likely," said Dr. Allen, "one woman has hypnotized the other. This would open the way for auto-suggestion, and the circuit would be complete."

"Often such patients may be awakened by outside suggestion, stronger than that exercised upon each other. For instance, in a case of hypotopy, the patient might be told that boiling water was to be poured upon him. When cold water is then dashed upon the body the suggestion that it is boiling water revives the patient."

In other words, the minds of the two women in perfect sympathy mutually react, making the sleep deeper as it progresses.

There are few cases like that of the two patients. For 13 days they have lain motionless. It is quite possible that both hear and understand what is going on around them, without the power to express themselves by the slightest movement of a muscle. Food is forced down their throats, the swallowing muscles being powerless. This food consists of eggs beaten up in milk, and its nutritive power is sufficient to keep the two alive.

Up to a late hour today neither showed signs of awakening. It is probable that both will recover consciousness at the same time, unless the sleep ends in death. In that case Dr. Allen's remarkable diagnosis will be almost proven.

The attention of the medical world is centered on the curious case. Physicians generally scout the idea that the coma is the result of gas poisoning to which both had been subjected. Either it would have ended in death days ago, or the effects would have worn off, is the unanimous opinion.

Dr. Fisher, who has charge of the cases, said that a case so prolonged was extremely unusual. The daughter, he said, showed a slight fever, but the mother's temperature is normal. The bodily functions of both are perfectly normal, with the exception of the rise in the temperature in the younger woman.

AGAINST POOLROOMS

Charges Made by Chicago Ministers
That Certain Officials in the City
Have Been Bribed.

Covington, Ky., March 23.—Charges made by the local ministers that certain city officials had been bribed by the operators of various poolrooms, so that the latter would not be molested in receiving bets on horse races, are to be investigated by a special grand jury, which has been ordered by Circuit Judge Shaw. The charges were made by ministers in several churches last Sunday, and a crusade of the ministers and the members of the various women's clubs against the poolrooms will soon be started.

NEW LAW IN FORCE

Life Insurance Companies That Are
Doing Business in Arkansas Are
Affected By It.

Little Rock, Ark., March 23.—The new trust law of Arkansas became effective today, and it is announced that practically all the nonresident out-of-state fire insurance companies, about 70 in number, ceased doing business in this state because of the clause of the new law assessing heavy penalties upon such companies remaining here if they are members of rating bureaus anywhere, either in or out of Arkansas. Attorney General Rogers refused to accept a \$50,000 bond of business companies for the purpose of business companies pending a test of the new law in the courts.

LOCAL OPTION SUIT DECISION MCH 25

JUDGE C. W. SEWARD INSTRUCTS LAWYERS TO BE READY FOR TRIAL FRIDAY.

Water Works Case Called in Common Pleas Thursday, but Attorneys Were Not Ready.

In the case of H. E. Elwinger against the Village of Hebron to contest the result of the local election held in that place on January 19, the testimony was finished and the arguments made to the Court on Wednesday afternoon. Judge W. A. Irvine has reserved his decision until Saturday morning at 9 o'clock.

Water Works Case.

The case of Charles Vadakin, et al., vs. A. J. Crilly, et al. (The Water Works injunction suit) was called for hearing in the Court of Common Pleas Thursday morning. It was stated to the court that Attorney Doyle of the firm of Squires, Sanders & Dempsey, attorneys at law, Cleveland, O., was unable to be here Thursday morning, owing to the fact that a trial in which he was engaged at Cleveland had not been concluded but that he would be present Friday morning. As Mr. Doyle represents some of the defendants and was unavoidably detained, the hearing was passed over until Friday morning, at which time the witnesses were ordered to return.

Petition in Error.

In the case of Charles F. Dean vs. the State of Ohio, petition in error to the Circuit court, plaintiff says that in an action lately pending in the Common Pleas court wherein the plaintiff in error was plaintiff and the State was defendant in error, the Court of Common Pleas affirms the judgment of the Mayor of Newark. In this case the plaintiff in error was charged with keeping his saloon open on Sunday and selling intoxicating liquors unlawfully; that the Mayor against the protest of the plaintiff in error assumed final jurisdiction and tried the case without a jury and rendered final judgment on each of the alleged crimes stated in the affidavit. The plaintiff in error says that there is error in the record and proceedings of the Mayor, and of the court of Common Pleas prejudicial to him, which he points out as follows:

First: There was not sufficient evidence to sustain the judgment of the Mayor.

Second: The Mayor overruled the motion of the defendant below to require the State to elect upon which of the crimes stated in the affidavit it would proceed to trial.

Third: The Common Pleas court erred in affirming the judgment of the Mayor.

Fourth: That improper evidence was omitted and proper evidence was excluded at the trial.

Fifth: The motion for a new trial should have been sustained by the Mayor.

Sixth: That the Mayor overruled the demurrer to the affidavit over objections and exceptions.

Seventh: The Mayor overruled the motion to quash the affidavit over the exception of the defendant.

Eighth: The Mayor was without jurisdiction to try the defendant upon the affidavit without a jury.

Ninth: The defendant was not legally arraigned.

Tenth: The judgment and sentence of the Mayor was contrary to law.

Wherefore the plaintiff in error prays that said judgment and sentence be set aside and reversed and the plaintiff in error be restored to all things he has lost by reason thereof. S. L. James and Smythe & Smythe attorneys for plaintiff.

A similar petition in error has been filed by the same attorneys in the case of Frank J. Bader, plaintiff in error vs. the State of Ohio, plaintiff in error.

Action for Divorce.

Samuel Rice, by his attorney, Ralph Norpell, has filed his petition in the Probate court asking for a decree of divorce from his wife, Clara B. Rice. The parties to the suit were married September 18, 1897, and one son, now five years old, was born of the marriage. For cause of action plaintiff charges his wife with infidelity. He asks for a decree of divorce and custody of the child.

Distribution of Money.

Abel J. Wilson, administrator of the estate of Mary Kirkpatrick, deceased, has commenced suit in the Common Pleas court against Margaret A. Hill, Robert Johnson and Margery E. Johnson, for the distribution of money belonging to the estate.

Divorce is Granted.

The Probate court has granted a decree of divorce to Eva Taff from her husband, Charles Taff. The parties were married on October 16, 1904, and their children were born of the marriage. The decree was granted on the ground of the husband's failure to provide and maintain. The plaintiff was restored to her maiden name of Eva Kern. Mr. Taff made no defense.

Action for Damages.

Mrs. Maggie McIntire has brought suit in Squire Lake's court for \$300

damages against Charles Martin, the well known South Third street saloonist. Mrs. McIntire claims that she has been damaged in the above sum because Martin sold intoxicating liquors to her husband after he had been warned not to do so. Mrs. McIntire claims that her husband was allowed to purchase liquor in September, December and January. The notice which forbids the sale of the booze to McIntire was issued last September. The case was heard in Squire Lake's court Thursday, before a jury. McDonald and Sparks for the plaintiff and Gil C. Daugherty for the defendant.

Judge Wickham is Happy.

County Prosecutor E. T. Humes and Judge E. M. Wickham were the happiest men in Delaware when they learned the decision of the Supreme court holding the criminal section of the Valentine-Stewart anti-trust law valid.

Early in 1903 Prosecutor Humes was presented a petition signed by several hundred laboring men of Delaware, asking him to investigate the Delaware Coal Exchange composed of eight leading coal dealers of the city.

A copy of the constitution of the exchange fell into the hands of the prosecutor, showing that the purpose of organization was in direct violation of the Valentine anti-trust act, the matter was taken before the grand jury, and indictments were returned January 14, 1903.

Members of the coal exchange were immediately placed under arrest and at a trial in February pleaded not guilty. The court ruled the criminal section of the law constitutional, and the indictment valid.

The attorneys for the coal men then made a motion for stay of execution of sentence and when these came before the Circuit court of the Eighth district, Judges McGarry and Finch reversed the decision, but Prosecutor Humes and Judge Wickham were not to be balked and at their own expense carried the case to the Supreme court.

DON'T EXPERIMENT.

You Will Make No Mistake if You Follow This Newark Citizen's Advice.

Never neglect your health. If you suspect your kidneys—if you have pain in the back, urinary disorders, dizziness and nervousness, it is time to act, and no time to experiment. Use a remedy which is known to be safe and sure. Doan's Kidney Pills is that remedy, and if you wish to be cured of kidney trouble without experimenting, do not fail to use it.

P. Lisey, commission merchant, of 9 South 4th St., Newark, O., says: "I have had no occasion to use any kidney medicine since 1896, and therefore think more than ever of Doan's Kidney Pills. They cured me eight years ago and I made a statement for publication at that time recommending Doan's Kidney Pills. This statement I will repeat for the benefit of other sufferers from kidney troubles."

"For several years I was distressed and annoyed with pain in the back just over the kidneys, and whenever I moved or tried to lift anything the trouble became acute. Treatment had failed to bring me relief and at last I had to take the prescriptions I had been using and went to Clayton's drug store for a box of Doan's Kidney Pills. The use of this remedy proved so effective that my back has been sound ever since I used Doan's Kidney Pills eight years ago. I therefore have no hesitation in recommending them to others."

A WOMAN TO BE ELEGANT

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it eats the vitality. The white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send for sample to The Herpicide Co., Detroit, Mich.

DR. BELL'S PINE-TAR-HONEY

will cure in one night—it will always prevent a cold if taken on coming in out of the wet.

Delightfully pleasant to the taste. Good for children. Good for everybody.

Get it now! Last November I was taken with a severe cold and cough. I used a bottle of standard expectorant and was not benefited in the least. I then tried another standard cough cure, but with no better results than with the expectorant. I was then recommended by a druggist at Corinth, N. Y., to try Dr. Bell's Pine-Tar-Honey and after using one 25-cent bottle I was completely cured. This testimonial was unsolicited, but you are at liberty to use it in any way you may choose. In my opinion you have by far the best cough medicine on the market. Yours truly, J. K. NORMAN, Ch. Co.

Cures Coughs and Gives Strength to the Lungs.

Over 4,000,000 bottles were sold during the year 1904, on an absolute guarantee. Out of this vast number of sales money was refunded on only one bottle. This proportion—4 out of 4,000,000—is so exceedingly small that it hardly makes a ripple in the solid phalanx of satisfied customers. This is the unprecedented record of the most wonderful cough medicine on the market.

Cardinal Democratic Truths.

Recently at a large and representative meeting of the younger members of the Franklin county bar, embracing over 125 active Democratic lawyers, the theme of inquiry and discussion was "Why are we Democrats?"

The summing up of the interchange of opinion was: "Because we hold with Thomas Jefferson, these truths to be self-evident:

- "1. That all men are created equal.
- "2. They are endowed by their Creator with certain unalienable rights.
- "3. Among these are life, liberty and the pursuit of happiness.
- "4. That to secure these rights governments are instituted among men, deriving their just powers from the consent of the governed."

These are the four cardinal points and principles of Democracy. The four great corner stones of the temple of representative self-government. They embrace all of Democracy for all time and for all people.

Whoever believes in them believes in Democracy. Whether he practices what he believes depends upon himself. The fourth proposition embraces all of honest politics.

It means that the primary rights and claims to the blessings may only be preserved by the honest administration of the "just government" recognized in the rescript of our liberties and the Constitution.

It means that all official duties and obligations must be honestly discharged; that the government must be economically administered, free from wasteful or dishonest extravagance, on the one hand, or niggardly penuriousness on the other; that while the official laborer is worthy his hire, he shall perform services to meet the public requirements.

It means that here in Ohio where the dominant party is hopelessly in the grasp of a boss and his sinister satellites, and the laws are honey-combed with "sleepers," injected for the purpose of furnishing the boss' favorites with graft, there must be a turning-out of the official incompetency and delinquency, and a return to the plain and straightforward methods in government that business men pursue in honestly and successfully conducting their business affairs.

But it does not mean that politics shall be conducted along business lines for the mere purpose of making money for the manipulators.

And finally, the four great cardinal principles as above are a clear and sufficient guide to every voter in passing upon any issue that can possibly arise, for after all the all in all of politics consists in securing to the people a just government, honestly administered.

That scores of the bright and younger lawyers of a city and county in the heart of Ohio should come together and agree upon a matter so important and far reaching is indeed a most hopeful sign—its significance may date an epoch in our political history.

It is of course, recognized by all thoughtful men of all parties, that there can be but one issue in Ohio, in this off year. The issue of turning out the unworthy party leaders for 10 years of unrestrained power in the state offices and legislature, and most largely in the local offices, have been

driving Ohio upon the reefs of bankruptcy.

"Honesty in office; economy in public expenditures; an end to grafting." This is all the platform needed.

NEWS OF HEBRON

FAREWELL SERMON PREACHED BY REV. H. H. ELWINGER.

Good Work Done by This Minister in Past Three Years—Bell Exchange Moved—Personals.

Hebron, O., March 23.—Quite a large and appreciative congregation greeted the Rev. H. H. Elwinger at the morning and evening services at Church of Christ Sunday and listened with deep interest to the plain, practical truths, which were clearly and forcibly presented in the pastor's usual earnest manner. The evening farewell sermon on the subject "Bear one another's Burdens," was delivered in a very impressive manner and the truths as presented by Mr. Elwinger should live forever in the hearts of the people. All during the services an air of sadness prevailed owing to the fact that the brethren realized that the time was drawing near when the "good byes" must be said and they were soon to be severed from their pastor, who had for the past three years labored so faithfully with them and endeared himself in the hearts not only of the church, but the community in general, will miss the encouraging words and strengthening influence of a noble worker for the Master. As a result of his good work here, about sixty have been added to the church and through his personal efforts the Sunday school and Christian Endeavor have nearly doubled during the last year, and a Junior C. E. organized with about forty members. During Mr. Elwinger's sojourn here he has deservedly won many friends not only as minister, but also as a citizen, who as the old saying goes, practiced what he preached; nature having made him a strong advocate of the truth. He worked for the good of the community and never could be called a "coward" in defending the rights of the village. Although the congregation and community in general regret to lose the services of Rev. Mr. Elwinger, yet they all unite in wishing him success in his new field with the Church of Christ at Fayette, Ohio. At the close of the services Sunday evening there were five accessions to the church.

Mr. and Mrs. Charles Stoolfire of Newark attended services at Church of Christ Sunday.

Gas at Alexandria.
Mr. M. E. Lytle, superintendent of the gas fields for the Ohio Fuel Supply company, was in town the first of the week and said that it would not be long before Alexandria would be burning natural gas. He also said that the right of way from the well to Alexandria had been secured, and work will begin as soon as the fittings arrive. The pipes are on the ground and it will be but a short time until everything is connected up and gas will be burning in Alexandria.

Garbage Problem.
The question of the disposal of garbage in Granville during the summer season is one that should be acted at the present time above all others, and proper legislation should be enacted regarding everybody to keep their premises in as cleanly a condition as possible. It has been suggested that the party securing the contract for sprinkling the streets should also be given the contract for disposing of the garbage.

Heisey Gas Well.
The Heisey gas well on the Allton farm in Union township, which came in last Saturday afternoon for less than 1,000,000 feet, was drilled in at a depth of 2,260 feet, in 26 feet of sand, which was very close and hard. This is the smallest well the Heisey's have drilled in on the Allton farm. The sixth well is now being drilled on this farm and it is said that a seventh well will be put down. At a rental of \$200 per year for each well this makes a nice income for Mr. Allton.

To Improve Residence.
Mr. J. S. Jones will build quite an extensive addition to his already handsome residence on West Broadway. The addition will consist of six handsome rooms, constructed in the most up-to-date style, and a number of improvements will be made on the interior of the main building. The stone for the foundation of the new addition is already on the ground, and the work of excavating is now being done.

Opera House Piano.
The Township Trustees have recently placed a new piano in the Opera House, which is something that has been needed for a long time. Hereafter a small fee in addition to the regular hall rent will be charged parties using the house, and in this way the instrument can be paid for without any inconvenience to any one.

New Rate to Columbus.
The Toledo and Ohio Central railroad company has made a rate from Granville to Columbus, good for one day, of \$1.00. This action on the part of the T. and O. C. railroad company has been done to meet the mileage book rate, which is the same on the Newark and Granville and the Columbus, Buckeye Lake and Newark Electric lines.

More Gas Notes.
Kinsey and Sons are now engaged in moving one of their strings of tools from the Allton farm in Union township to the vicinity of Utica. The Heisey well, No. 6, located on the Allton farm in Union township, is now down about 1700 feet, and will probably be drilled in about the first of April.

Talk of New Building.
The members of the town council are considering the advisability of constructing a new building in Granville for the use of town officials and the council. In connection with the building it is also proposed to construct a jail and hose room. This is something that has long been needed in Granville, and will have the endorsement of all our people.

Will Locate in Newark.
Dr. Edwin Wright, son of Mr. T. F. Wright of this place, will probably locate in Newark. Dr. Wright is a graduate of Starling Medical college and is well qualified in every way for the profession he has chosen.

Granville Personals.
Rev. Frank G. Hillman, formerly pastor of the M. E. church of this place, now Presiding Elder of the Portsmouth district, was in town on Friday of last week, and received a warm greeting from many of his old friends. Mrs. Lee took a great fancy to Mrs. Hull and wished to adopt her, but Mrs. Hull will continue her journey Mrs. Hull is now visiting Mrs. Lee for a few days.

Thursday, March 16, Mr. and Mrs. D. W. Scott celebrated the fortieth anniversary of their wedding.

A new street will run from the north end of Main street, and Main street will be lengthened 50 feet to make the addition possible. Mr. W. H. Mead purchased the right of way for the street from L. & W. Weigle for \$400.

Mr. and Mrs. F. J. Brockett spent Saturday and Sunday with their daughter, Mrs. Harry Inscho of Newark.

Dead at Brockton.
Brockton, Mass., March 23.—City Marshal Boyden, after examining the payroll of the R. B. Grover shoe factory, estimated the number killed by Monday's explosion and fire at between 60 and 75. The factory books showed 400 employees enrolled, and 90 of these have not reported as having escaped, but the city marshal stated that the estimate was based upon the fact that someone who escaped from the factory had failed to report the fact to the authorities, as well as upon the probability that not all the operatives were in their places at the time of the accident.

Doctors Pleased Guilty.
New York, March 23.—Dr. Henry H. Kane and Dr. William H. Hale, indicted for grand larceny some time ago, pleaded guilty to the charge. The complainant, John J. McCallum, alleged that the two doctors treated him by what they called a radium process, for which he paid \$10,000 without receiving any benefit. Since the indictments were brought Kane and Hale have returned the money.

Military Fire on Peasants.
Warsaw, March 23.—Serious agrarian disturbances occurred at Kutno. It is reported that the military fired on peasant rioters and that several of the latter were killed or wounded. There were similar riots at Ostrov, in the same district. The governor of Warsaw, with the public prosecutor, has gone to investigate affairs.

Get SCOTT'S Emulsion

When you go to a drug store and ask for Scott's Emulsion you know what you want; the man knows you ought to have it. Don't be surprised, though, if you are offered something else. Wines, cordials, extracts, etc., of cod liver oil are plentiful but don't imagine you are getting cod liver oil when you take them. Every year for thirty years we've been increasing the sales of Scott's Emulsion. Why? Because it has always been better than any substitute for it.

LAST HOURS

On Earth of Hamilton, Doomed to the Chair, are Spent Playing on the Guitar.

Columbus, O., March 23.—Herman Hamilton, who murdered Lee Oliver in Portsmouth, O., May 26, will be electrocuted after midnight tonight. He is not worrying about his approaching death. He spent all of yesterday playing on a guitar and singing popular airs.

Although Hamilton will die within a few hours he has not given up the work at which he has been studiously engaged since his incarceration in the annex.

When received at the institution Hamilton could not read or write, but in eight months he has made rapid progress. He is proud of his attainment, and says it he had been given "schooling" when he was a youth he would not have wound up his career in the electric chair.

FIGHT TO DEATH

Dr. Legge's Dog, Ted, Puts Curious Thomas Cat Out of Business in First Round.

A well built Thomas Cat, whose curiosity exceeded his good judgment, wandered into Coroner Legge's office Wednesday night to make the acquaintance of Dr. Legge's bull dog, Ted. Ted was not in a frivolous frame of mind and resented the approaches of the feline. Right there is where his catship made a mistake. He should have gone on his way and tried to flirt with some other jolly, good natured canine, but he very saucily slapped Ted a playful tap on the nose. Suffice it to say that the contest which followed this hostile demonstration lasted but one round, and this was finished before the coroner, who was in his consultation room, could rescue the cat. The coroner's verdict in the case was "The deceased came to his death in an encounter with a dog, said dog acting in self defense."

Are You Engaged?

Engaged people should remember that after marriage many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." Hall's drug store, sells and guarantees them, at 50c bottle.

MORTGAGES.

A lot of you readers have mortgages on your homes. Seems like it's about all you can do to pay the interest on it. If you, a big, strong man, can't raise that mortgage, will you tell us how your widow is going to do it? It is your children will keep her fully entertained, and it you don't provide the means of raising the mortgage, the sheriff will raise the roof from the heads of your dependent ones: This isn't sentiment—it's a brutal fact. A policy in the Equitable Life of New York will raise both the mortgage and the children, and it costs very little, too. You don't have to die to win; if you live to an old age, the cash value of the policy, which will be a large sum, may be drawn by you and used for your own support.

AMERICAN LEAGUE

Not Yet Prepared to Intimate Any Line of Action—Johnson Talks at Chicago.

Chicago, March 23.—President Johnson of the American league, says he is not yet prepared to intimate any line of action the American league might take in view of the hostile act of the Los Angeles club in taking away first baseman Chase from New York. The matter is now in the hands of the national commission. Mr. Johnson said, "Much talk has been going on among the minors and by lawyer Griffith of New Jersey, who has absolutely no baseball connection, about war and declarations of war by the American league, which the league has no intention of starting, but if this is the first indication of a fight and the minors intend to break the present agreement, they will never get the American league into another so favorable to them, and furthermore the American league will put forth all its efforts to beat the foes of organized baseball."

NEWARK GUN CLUB

Will Now Try to Recover the Phellis Trophy, Which Has Gone to Cincinnati.

The Newark Gun club having lost the Phellis trophy at Wednesday's shoot, will now have something to work for. The stay of the trophy in the Cincinnati camp will be short if the local trap shooters have anything to say in the matter. The close score by which the Cincinnati club won out Wednesday lends an incentive to the locals to make an early try for the recapture of the cup.
Hulshizer, King and Hall, three of the best marksmen in the local club, were not in form and are not satisfied with the results. This fact alone is ground enough to make another attempt soon to return the trophy to Newark. The fact that the traps were so strong prevented all the gunners from making high scores and with a regulation trap the locals as well as their opponents would no doubt result in a score which would hug pretty close the record.

BASKET BALL

Last Game of the Season Will Be Played Tonight by Columbus Team in Newark.

This will be the last game to be played by the Columbus boys and they will make every effort to return to their camp victorious. The probable line up for Newark is: Bell and Pine, forwards; Moore and McFarland, guards; Pine, center. The Columbus team will line up as follows: Lemert, rf; Hunter or McGuire, lf; Shanahan, c; Carroll, rg; Hamilton (C) lg.

Y. M. C. A. PLAYERS

Will Go to Coshocton Saturday Night to Play High School Team—The Probable Line Up.

The Y. M. C. A. basketball five will tie themselves off to Coshocton Saturday night where they will play the Coshocton High school. The probable line up for the association will be: Beecher and Burke, forwards; Gardner and Smith, guards; Herman, center. Thursday evening, March 23, the Coshocton boys will be brought to Newark to play a return engagement with the Y. M. C. A. boys.

BY NARROW MARGIN NEWARK LOST PHELLIS TROPHY TO CINCINNATI

Clarence E. Orr of Local Club Carried Off Honors of the Day, Killing 46 Out of Possible 50 Birds—Columbus Men Third in the Contest Wednesday.

By the close score of two birds, the six man team of the Newark Gun club lost the Phellis trophy which they won from the Dayton club at a shoot held there last December, shortly before Christmas.

The conditions were not favorable to a record score by any of the teams taking part in the shoot, as the atmosphere was hazy. Besides this, the trap used for throwing the clay pigeons was too strong and threw the targets far beyond the regulation range, 60 yards. In spite of these drawbacks some good scores were made, the highest being 46 out of a possible 50 birds. This score was made by a Newark man, Orr, Cincinnati, the winning team, scored 244 birds out of a possible 300, their highest score being 40 birds.

Rhoades, the high man on the Columbus team, which scored less than Newark's second team, is considered one of the best trap shooters in the state and ranks high among those of the country. His score was 44 out of a possible 50. All of the Cincinnati team are prominent trap shooters and have taken part in national and state contests.

Newark's team might be called the preparatory class, its members not having qualified for the first team, which is the bona fide representative in all contests in which the Newark Gun club takes part. John Kief is a new member, joining the club last winter. He is showing up well in fast company, and will not doubt be assigned a place on the first team soon.

CELEBRATION

Of Double Wedding Anniversary at the Home of Mr. and Mrs. Andrew Vogel of Mallon St.

Thursday, March 23, 1905, marked an epoch in the lives of Mr. and Mrs. Andrew Vogel of this city. It was the fifty-fourth anniversary of the marriage of Mr. and Mrs. Vogel, and was also the twenty-fifth anniversary of the marriage of their daughter, Lizzie, to Mr. Charles Rogers, a well known resident of Zanesville. The double wedding celebration was observed at the home of Mr. Vogel on Maholm street, but on account of the illness of Mr. Vogel, the celebration was a very quiet one, and was confined to a family reunion. Four generations were represented at the reunion, being Mr. and Mrs. Vogel, Mr. and Mrs. Charles Rogers, and Mr. and Mrs. William Tally and children of Zanesville. The principal feature of the occasion was the splendid dinner that was served. Fifty-four years ago Mr. and Mrs. Vogel were married by Squire Smith in Madison township, and ever since that time, they have made their home in Newark, where they have been highly respected and esteemed by all who have known them.

HORSE STOLEN

But It Was Later Hatched Near Lumber Yard on Clinton Street—Owner is Wm. T. Evans.

Mr. W. T. Evans, who lives just outside of the city on the Mt. Vernon road, drove to town Wednesday night to attend the services at the Second Presbyterian church. He hitched his horse in front of the church on Church street but when he returned for the rig after the close of the services the horse and buggy were missing. Mr. Evans notified the police of the fact and a lookout was kept by the officers during the evening but no trace of the missing vehicle was found. At 6 o'clock Thursday morning a message was received from a lumber yard on Clinton street that a rig was standing in front of the office and had evidently been there all night. Officer Zergiebel was sent to bring the outfit to the livery stable where it was later identified and claimed by Mr. Evans.

AMUSEMENTS

FOR FAIR VIRGINIA.

It is remarkable the strong hold upon the affections of the theatre going public, retained by the great war play, "For Fair Virginia" that comes to the Auditorium on Friday, March 24. It is a stirring story of the civil war, in which love, intrigue, villainy and adventure figure. The whole gamut of emotion is played upon, and every human sense is touched. The love interest centers first in and upon a young married couple, who are divided in national sentiment. One espouses the Northern cause; the other that of the South. An unscrupulous adventurer tries to widen the breach. A loyal friend prevents it and as the war closes, both are brought together, the villain is removed from the scene of earthly ills, while the loyal friend is rewarded by the love of the husband's sister. The dialogue is delightful and refreshing, and the tone of the whole play is on a lofty, pleasing scale. All who wish straight out, exciting and refined entertainment cannot afford to miss "For Fair Virginia."

THE DENVER EXPRESS.

"The Denver Express," under Holden Bros. management, is one of the safe propositions of which a theatre goer likes to renew acquaintance with. Its merit has been proven in past seasons here, and an exceptionally strong cast is promised for the forthcoming opening at the Auditorium Saturday, March 25.

CECIL DE MILLE COMING.

Cecil De Mille is only 25 years old, but he has already made a place for himself on the stage that many an older man might envy. He is the youngest son of the late Henry C. De Mille, the co-author with David Belasco of "The Charity Ball," "The Wife," "Men and Women," and "Lord Chumley," so he inherits his talents honestly. After playing many important parts with well known stars Mr. De Mille has chosen to revive the play "Lord Chumley," written for E. H. Sothern by his father, and in which Mr. Sothern made one of his greatest successes. The management has provided him with an exceptionally good company and the scenery is the same as was used in the New York run. Auditorium, Friday, March 31.

RUMOR IS AFLOAT IN NEWARK TODAY

THAT SUPT. BATCHELDER MAY BE TRANSFERRED TO THE CHICAGO DIVISION.

New Machine for Welding Boiler Flues Invented by Mr. Morgan. B. & O. Rewards Man.

A rumor is current in railway circles to the effect that F. C. Batchelder, superintendent of the Newark division of the B. & O. will be transferred to the Chicago division of the road. In the latter position he will likely assume the title of general superintendent.

The Chicago division is now in the charge of A. J. Spielmann, who has the title of superintendent. That official, it is said, is to retire and will be succeeded by Mr. Batchelder, as general superintendent.

In support of the rumor it is stated that Trainmaster J. P. Fitzgerald, a brother of General Manager Thomas Fitzgerald, is to succeed Mr. Batchelder as superintendent of the Newark division. It is further said that these changes will become effective April 1.

Regarding the report, Chief Clerk T. J. Daly of the superintendent's office, stated Thursday that he could neither confirm the rumor nor deny it. Supt. Batchelder is out of the city and could not be seen. The local officials say they know nothing of the proposed change.

Mr. Morgan's Invention.

The mechanics at the B. & O. shops are watching closely for the results of a new machine which has recently been invented by Foreman Morgan of the blacksmith shop. The machine is used for welding boiler flues and is a great labor saver. Mr. Morgan has been modest in talking of his invention, preferring to wait and let the machine speak for itself.

For years the problem of welding boiler flues has been one which caused railroad shopmen no little annoyance. When flues are taken from a locomotive boiler, the ends are mutilated in such a manner that it is necessary to cut off five or six inches of the end. The entire flue is useless unless the tube can be restored to its former length. This is done by welding a small length of tubing to the longer piece. By the old process, the present force in the blacksmith shop could weld but 180 flues in a day of twelve hours. With the assistance of Foreman Morgan's new invention, the same number of men can weld 400 flues in the same length of time. The machine has been in operation now for four weeks, and so far has been very successful. Should this success continue the invention will prove of interest to railroad men all over the country. No doubt the B. & O. will install machines made after Mr. Morgan's plans in all the shops on the system.

Mr. Morgan is a man of wide experience as a mechanic. He has spent several years as instructor of practical blacksmithing in Purdue university, and is looked upon as valuable man in the local shops.

Track Covered by Water.

The stretch of track lying between Marietta and Parkersburg on the B. & O. is entirely covered by water and since Wednesday morning no trains have been operated on that part of the division. The high waters are subsiding and it is hoped that the tracks will be in condition by this evening to allow trains to be run through to Parkersburg.

For Motive Power.

Official announcement was made at the general offices of the Pennsylvania in Columbus Wednesday that the company had decided to spend over \$1,000,000 in motive power.

Frank A. Durban Appointed.

Hon. Frank A. Durban has been appointed general solicitor for the Cincinnati & Muskingum Valley railroad to succeed the late Judge John S. Brzee, of Lancaster. Mr. Durban is general counsel for the B. & O. west of Pittsburg, and will retain his position with that company.

Train Ahead of Time.

On account of the dangerous condition of the bridge over the Ohio river at Wheeling, W. Va., due to the high water, the B. & O. detoured all of its

BACKACHE and Pain in the Side Cured by Thompson's Barosma.

He says: "Thompson's Barosma completely cured me, purified my blood, and made me feel many years younger." Thompson's Barosma will positively cure all diseases of the Kidneys, Liver and Bladder; also Sciatic Rheumatism, Lumbago, Palpitation of the Heart, Nervous Debility, and Female Weakness. THE WILES, ERMAN DRUG CO.

trains over the Pan Handle from Pittsburg Tuesday night. Trains Nos. 106, 105 and 107 were sent over this route and turned over to the B. & O. at Newark. An amusing incident occurred in connection with the detouring of No. 105. The train was sent west over the Pan Handle, which has a much shorter route between Pittsburg and Columbus. When Newark was reached it was discovered that No. 105 was one hour and five minutes ahead of time, and in order to send it west on its own schedule it was necessary to hold it one hour and five minutes. Wednesday morning it was announced that the water in the Ohio river was falling, and as the danger was passed No. 103, due in Columbus at 2:25 p. m., was sent over the B. & O.—Columbus Dispatch.

Boiler Makers are Scarce.

Boiler makers at the B. & O. shops are scarce at the present time and followers of this vocation would have but little trouble in getting a position in the boiler shops. In explaining the shortage of this class of workmen, a B. & O. man stated this morning that the work of a boiler maker was harder than that of a machinist or a blacksmith and that the pay was no better. For this reason but few apprentices are learning the trade.

The list of sick at the shop remains quite long, fully one hundred employees being absent from their work.

Flood Conditions at Wheeling.

Wheeling, W. Va., March 23.—The river reached its maximum here at midnight, with 42 feet 7 inches on the gauge. The city is all but entirely isolated, only the Baltimore and Ohio being able to run trains east and west on the main line. Most of the large industrial establishments are idle for four days or longer, throwing 20,000 men out of employment in Wheeling district and causing a wage loss of \$150,000 to \$200,000. The loss from the suspension of the jobbing and retail trade will amount to fully as much.

Train Ditched.

Eau Claire, Wis., March 23.—A Wisconsin Central short train running between Eau Claire and Chippewa Falls was ditched by a broken rail. The baggage and passenger coaches were overturned and burned. One woman and four men were slightly hurt. One man was taken to the hospital here suffering from internal injuries.

Held Up a Freight.

Texarkana, Ark., March 23.—Freight train No. 97 on the St. Louis and Iron Mountain railway coming south, was held up at Bowden by a drunken section foreman named Fred Snelling. Snelling shot at Engineer Winn and threatened to kill the brakeman if he flagged the train forward. The train finally backed to Prescott and officers were brought back and arrested Snelling. Brakeman Hellum had Snelling tied when the officers arrived, having knocked him down with a winchester. The holdup was not for the purpose of robbery. Snelling, it is said, was jealous because his wife had waived at the trainmen. Snelling shot the windows out of the cab.

CHECK FROM B. & O.

Sent to Thos. Bain for Good Service in Stopping Train in Time to Prevent a Bad Wreck.

train upon the discovery of a landslide near Shaner Station on Sunday evening, March 5, and thus probably preventing a serious accident. The letter was from Third Vice President Potter, and read as follows:

"On behalf of the Baltimore & Ohio railroad, its president and officers, I desire to express the appreciation that is felt by all for your prompt action in flagging the second section of train No. 5 near Shaner Station Sunday evening, March 5th, where a landslide covered a portion of the track, thereby probably averting a serious accident.

"It is no doubt a matter of great personal gratification to you to feel that, by your efforts, a large number of persons were probably saved from injury, and perhaps death.

"While your action was incited wholly by your desire to protect your fellow men in danger and the railroad company's property, we hope that you will accept the enclosed check for \$100 as a recognition of your courage and presence of mind."

Mr. Bain had the letter and check delivered to him at Pittsburg by General Superintendent Finney and he accepted it with the same modesty that characterized his acceptance of a purse of about \$85 made up by the passengers on the train at the time he stopped it. Bain is a hard working young man 23 years old and does not feel that he has earned any more credit for what he did than having performed his duty to the railroad company and the people on the train. He saw the track covered with earth and heard the train coming. It required prompt action.

Bain was on his way home when he discovered that a landslide had covered the track. It was dark, and hearing the train approaching, he hurried to the nearest switch, tore a lantern from it and succeeded in flagging the train so that it was stopped within about 30 feet of the obstruction. The train was the second section of No. 5 going west and many passengers were on board.

Congress recently passed an act authorizing the President to give a medal of honor to any one who, by an act of heroism promotes the security of travelers on railroads and aids in the saving of lives. President Roosevelt has had his attention called to Bain's services and he will probably give his case consideration as soon as the regulations under the act have been formulated. It is possible that Bain may be awarded the first medal under the act.

Receiver Says Three Persons are After Them, But Gives No Names. Identified With Creditors.

In an interview in Cincinnati, J. G. Schmidlapp, one of the receivers of the Appleyard lines, given upon his return from New York, stated that there are three persons figuring on the purchase of the Appleyard lines. He declined to mention their names, other than to say that they are identified with the present creditors.

Experts employed by the receivers to investigate the books and accounts of the Appleyard lines have completed that portion of their work and are at the present time counting the cash.

Word has been received in Columbus to the effect that the Cincinnati & Columbus traction road will be placed in operation between Norwood and Hillsboro on July 1, completing a distance of about 41 miles.

FAIR DANCER

Deserted Statesman Who Then Killed Himself

AFTER QUARREL WITH GIRL

Upon Whom He Had Lavished His Wealth and Affections--A Paris Suicide.

Paris, March 23.—Like the death of the great statesman Gambetta, his political teacher, was the end yesterday of M. Antonin Proust, the former minister of Fine Arts.

Gambetta sent two bullets through his brain when he discovered the perfidy of an actress on whom he had lavished his affections and wealth.

Proust was the avowed lover of Rosita Mauri, the terpsichorean celebrity, who was at one time the premiere danseuse of the Paris Opera.

Rosita is getting rather maternally in appearance, but still she is considered a beauty and an artist of rare talent. There were many rumors of estrangement between the couple of late. M. Proust became a victim of melancholia.

The climax came Monday night when Mlle. Mauri dined at the ex-minister's apartment. There was a violent quarrel and then the danseuse left in high dudgeon, vowing never to return.

Tuesday M. Proust, as did Gambetta, shot himself in the head and he died from his injuries.

M. Proust, who was Deputy from Niort, was born in that place March 15, 1832, his father being a former Deputy. He entered journalism, traveled extensively, and published a volume entitled "Round the World." After opposing the Olivier Ministry, at the beginning of the war with Germany in 1870, he accompanied the army of the Rhine as correspondent of the Temps. Returning to Paris after the capitulation of Sedan he became private secretary to Gambetta.

In 1876 M. Proust was elected to the Chamber of Deputies from Niort and devoted his attention most exclusively to foreign affairs and the fine arts. In 1881 he entered the Cabinet presided over by Gambetta as Minister of Fine Arts, and retired with the Ministry in 1882, after which the Ministry of Fine Arts was suppressed. He continued to be a member of the Chamber of Deputies, paying much attention to all questions relating to the arts.

In December, 1892, M. Proust was among the many Deputies compromised in the great Panama Canal scandal, and was one of the five prosecuted by the government. This caused him to resign the position of French General Commissioner to the Chicago World's Fair, to which he had been appointed. He was tried before the Assize court on the Panama charges, but was acquitted.

Rosita Mauri was born in Reus, near Tarragona, France, in 1856. Her father was also a dancer. She made her debut when 10 years old in a Syrian dance and soon attracted much attention by her talents and grace. Her father continued to teach her until she was about 14 years old, when he took her to Paris and placed her under the tuition of Mme. Dominique, then a famous teacher, and Mlle. Mauri was soon able to contract for three seasons at the Opera in Barcelona.

Her greatest successes were made in the ballets, "The Girl of Fire," "The Spirit of the Sea" and "Brahama." Later she caused a great sensation in Italy, even in Milan, supposed to be the home of the ballet.

Mlle. Mauri danced at the opera houses in Berlin, Vienna, Trieste, Turin and Rome and then returned to Milan, where she renewed her success at La Scala Theater. There she met Gounod, who was so struck with the talents of the young dancer that when he returned to Paris he obtained an engagement for her at the Opera.

In 1878, during the Easter holidays, Mlle. Mauri made her first appearance in Paris as Venus in "Polyte," but did not make much of an impression, in spite of the fame which had preceded her. She went back to Milan, but during the following winter returned to Paris, took the gay city by storm, and ever after remained at the head of the dancers of the Opera, eventually succeeding Rita Sanzani, who had been premiere danseuse.

TRUE BEAR STORY

TOLD BY N. W. HOLLER A FORMER LICKING COUNTY MAN.

Last Bear Killed in This Section in the Year 1851—Mr. Holler's Statement.

Mr. N. W. Holler, of Shepard, O., who until five years ago lived in this county, sends the following true bear story:

My father came to Newark in 1812 and killed some wild game of all kinds. I well remember the last bear killed in Licking county, near Newark.

One day from five to seven men came over the hills from the north. The men were on horseback and accompanied by hounds which were on the track of Bruin. The bear was ahead of the men about a half hour, but the hounds were in closer pursuit.

Father and I were in the clearing below and heard them coming. Father nearly always carried his gun with him and had it this time. He picked it up and ran up towards the bear a little ways to get a better range, and gave him a load of lead, causing Mr. Bear to throw up his head and give a coarse growl, but he kept on running. We noticed him limp a little as though he had a briar in his forefoot. The hunters on horseback soon came along. They were Messrs. Seymour, Canon, Spence, McCadden and some others whose names I do not now recall.

Father told them what he had done, and one said, "Well, Uncle Joe, if you have marked him you will get a piece of him, and don't you forget it." So sure enough, when evening came a man on horseback rode up and let a forepart of bear meat for "Uncle Joe," my father.

The men overtook the bear some four miles east of Newark. They found him on a big torched tree. So I helped to eat the last bear that was killed in Licking county, sometime during the spring of 1851.

Yours respectfully, N. W. HOLLER, Shepard, O.

Teachers of middle grades should retain this narrative, read it to the pupils, and have them reproduce it, adding what the bear had been doing in the neighborhood, how the men came to find his trail, and how the boy acted when he saw the bear. Notice the date.

GRANVILLE JAP

HAS NO DOUBT WAR WILL END IN VICTORY FOR MIKADO.

Mr. Watanabe Will Build Railroad in China When He Finishes His College Course of Study.

Delaware, O., March 22.—Toyoyuki Watanabe, a Japanese student at Denison university, Granville, is in this city visiting two of his fellow countrymen, K. Suzuki and Seito Inaba, who are in attendance at Ohio Wesleyan University here.

Mr. Watanabe is a graduate of one of the Japanese government military academies. His father is the chief of the sanitary department of the Japanese government, a very important position in clean Japan, and including the supervision of the government hospitals. After graduating at Denison, Mr. Watanabe will take a course at Cornell, after which he will engage in railroad construction in China.

He talks very interestingly of Japanese life and the war. He has rank as lieutenant in the Japanese army and has been notified to be ready to return home at any time. He thinks, however, that the war will soon be over and that he will not have to stop his studies. Seventeen of the boys who graduated in his class at the academy were killed in a single en-

agement recently. Mr. Watanabe eagerly devours every scrap of war news from the East and expresses no doubt but that his countrymen will ultimately win. "We will fight as long as any of us are left," he says, "although we will stop whenever Russia is willing to make peace. My people are naturally peaceable, but we will not consent to a peace that will not give us Port Arthur and control of Manchuria."

Trolley Car Accident—Attempt Made to Wreck Train—Workmen Fatally Hurt—Buckeye News.

Columbus, March 23.—Governor Herrick leaves tomorrow night for San Antonio, Waco, and other Texas points with a view of the trip helping him throw off the grip. He will be gone ten days.

Workmen Fatally Hurt. Upper Sandusky, O., March 23.—Peter and John Thiel and F. B. Howell, workmen, fell from a scaffold this morning and were probably fatally injured.

Trolley Car Accident. Springfield, O., March 23.—A Columbus, London and Springfield traction car crashed into a Springfield railway company car on Locust avenue today, and C. C. Cloud, motorman on the latter car, was badly bruised. The eleven passengers escaped injury. The traction car was the one which had the accident in Dayton recently when two passengers were killed.

Rivers Rising Slowly. Galpholis, O., March 23.—The Ohio river is 44 feet and rising slowly. The Kanawha river is rising slowly and one more foot of water is expected here.

Attempt to Wreck Train. Upper Sandusky, O., March 23.—Another attempt was made last night to wreck the 20th century flyer on the Pennsylvania. The attempt was made east of Ada, near the spot where a similar attempt was made Tuesday night, when ties were found piled on the track. Last night the track layers found crossbars imbedded in the cross ties in such a manner as to cause a frightful wreck. The attempt was discovered in time.

Telephone Extension. Licking Valley, March 23.—The Independent Telephone people from Gratot were down on Poverty run last week looking after the interest of their line with a view of building from Mt. Sterling down the run and crossing this ride toward Zanesville. Some are taking their line and some are signing for the Bell.

Milford Center Death. Marysville, O., March 23.—Oscar Reever, aged about 52 years, who had for many years been a prominent business man of Milford Center, after a long illness of tuberculosis, is dead.

Boy Arrested for Stealing. Dennison, O., March 23.—Chas. Laizure, aged 11 years, has been arrested at Uhrichsville and charged with breaking into the Pan Handle station, where he picked trunk locks and looted express packages like a professional. He bought candy with some half dimes taken from a trunk and was caught. He has been in trouble before.

Contractors May Organize. Zanesville, O., March 23.—The contractors of Zanesville are thinking of organizing, since the trades unions have determined to consolidate. The contractors will not grant the demands of the unions and it is probable a strike will result. The result of the organization of the trades unions is that if one set of men, the carpenters, for example, have a difference with the contractors, then all the men stop stop work until the difficulty is settled.

Zanesville Needs Better Water. Zanesville, O., March 23.—R. Winthrop Pratt, engineer to the Ohio State Board of Health, states that typhoid fever in Zanesville would be reduced 80 per cent by the use of pure water. It is thought that, although the city water is often muddy, it is not harmful to health, but Mr. Pratt says it is very impure.

Searching For Girl. Cincinnati, O., March 23.—A rigid investigation is being made by the police to find Mary Lottie Lucas, 15, of Toledo, abducted from the Soldiers' and Sailors' Orphans' Home at enXia, to determine whether she is alive or whether the clothes found on the river bank are mute evidence of murder. The girl was considered by the officials as a romanter, given to telling wild tales.
